

The following documentation is an informational warning to those purchasing the Ki2 shifter and rear derailleur conversions:

Unfortunately, due to Shimano's warranty on their Ultegra and DuraAce rear derailleur's and DuraAce shifters; Ki2 conversions will void the factory warranty covered by Shimano. Of course, the conversions that have been made will be warranted by K-Edge in the occurrence that something may go wrong with our workmanship.

In compliance with Shimano, K-Edge will also completely de-logo/cover all Ultegra and DuraAce logo's and serial numbers on the body of the RD and delete the DuraAce logo's on the pulleys. Also, packaging will change from the original Shimano packaging to our own packaging and will no longer contain the manufacturer's instructions/technical documents.
